GREETINGS

In presenting to our customers this edition of DISTINCTIVE GLADS, we wish to thank them for past orders and to express the hope that they have derived real pleasure in growing from our bulbs, beautiful blooms for home use, for exhibition, for gifts to friends, or for sale to others.

In reviewing our list, you will note that a number of newer varieties have been added to the list and that some of the older ones are no longer included. This is due to our effort to make available those which we consider "the best of the old and the new." The passing of old friends is usually due to their being replaced by better varieties in the same color class. However, their passing is sometimes due to poor habits of propagation or to the fact that some weakness has developed in the variety.

LOCATION

All mail should be sent to New Cumberland, Pa. However, we are growing our bulbs on our farm located on Route 441 about two miles south of Middletown, Pa. Those wishing to visit our fields during the blooming season should call at the farm. The greatest number of different varieties will probably be in bloom during the period from August 15 to September 1.

JOIN A GLADIOLUS SOCIETY

Persons interested in the growing of gladiolus should join a society. The benefits and information received are worth much more than the dues. Some of the societies issue regular publications such as bulletins and yearbooks. Others conduct trial gardens and issue reports on the varieties grown. They all conduct shows.

GLADIOLUS SHOWS

Plan to attend and exhibit at as many gladiolus shows as possible. Most show dates have not been announced as this catalog is going to press. However, the Keystone Gladiolus Society Show will be held at Lebanon, Pa., on August 6 and 7 and the Maryland Gladiolus Society Show will be held at Havre de Grace, Maryland on August 13 and 14.

CLASSIFICATION

With our description of each variety, we have included a number in parenthesis which designates the official classification of the variety for show purposes. In accordance with the plans used by the New England Gladiolus Society and the North American Gladiolus Council, the first digit of the number indicates the size classification and the second and third digits indicate the color classification.

VARIETIES

In our opinion, each variety listed in our catalog has merit and is worthy of your consideration. As to whether you will like a particular variety may depend on your personal preferences and the purpose for which you wish to use the flowers. Remember that the price is not an indication of the quality of the variety. Newer kinds must of necessity be higher in price because of scarcity of stock. We suggest that beginners start with tried and true varieties in order to avoid disappointment. Growers of more experience and fanciers will want to try the newer ones.

KUHN VARIETIES

We are proud to have been chosen to grow and distribute the originations of Chester and Dorothea Kuhn in the United States. These include many outstanding recent introductions in both large and small flower classes. Chet and Dorothea are constantly producing new varieties and we anticipate many outstanding releases from this source. While we have nearly all of their releases, stock of some varieties is very limited and cannot be included in our quantity list.

Canadian customers should purchase from Willow Acres, Bowmanville, Ontario.

OUR GUARANTEE

All our stock is guaranteed to be healthy, vigorous, free from thrips, and true to name. You must be satisfied. If any stock is unsatisfactory, write us at once and we will try to satisfy you. If you like our bulbs and our service, tell your friends.

PLEASE READ CAREFULLY

All quotations are subject to previous sale. We urge that you place your orders early so that you may not be disappointed. Each year we are unable to fill late orders for a number of varieties. No orders for bulblets will be accepted after April 1 as we expect to be planting bulblet stock by that time. We do not care to accept orders for bulbs after May 1, except for mixtures, as many varieties will be planted by that time. Orders are segregated as soon as possible after being received but will not be shipped until after danger of freezing is past, unless you request otherwise. However, bulbs can be sent any time desired. No substitutions will be made without your permission. If we are out of a variety you order, your money will be refunded unless you give us permission to make a substitution in size or variety. Cultural directions will be included with all orders.

ORDERS

Orders from the retail list amounting to \$2.00 or more will be prepaid to points in the United States. We prefer not to receive orders amounting to less than \$2.00. If such orders are sent, please include a fee of 15 cents to cover the cost of postage and packing. Prices as indicated in the quantity list are not prepaid, but are F. O. B. Middletown, Pennsylvania. If you wish to order part from the retail list and part from the quantity list, we will send the order transportation collect and will include extras or overcounts to make up for the transportation on the retail items. Where all or a part of the order is from the quantity list, please do not send money to cover transportation costs. It is impossible for us to estimate the cost of transportation. Please wait and pay the transportation charges when the bulbs are received.

Where a variety is listed at 2 for 20 cents or 2 for 25 cents, etc., please do not order a smaller number at a lower price. Five bulbs will be sold at one-half the price of ten, but no single item will be accepted for less than 20 cents except when so quoted. Where no 10 price is indicated, it may be found by multiplying the price of a single bulb by 8.

Where bulblets are sold by the packet, 25 to 50 or more will be included in each packet. We will give good value.

Do not ask for special quotations unless you have a large order. Our prices are very low for the high quality bulbs offered. However, we are glad to furnish special quotations to jobbers, growers, and others purchasing in large quantities.

DISCOUNTS

A discount of 5% in other bulbs will be allowed on cash orders from the retail list amounting to from \$3.00 to \$10.00. On such orders amounting to more than \$10.00 a discount of 10% in other bulbs will be allowed. These discounts do not apply to "collections," to items marked "no discount" nor to orders from the quantity price list. We also include worthwhile extras with retail orders. The value of the extras will be in proportion to the size of the order. Suggest varieties desired as extras. If we have sufficient stock we will comply with your request. However, new introductions and varieties marked "no discount" cannot be used as extras.

BULB SIZES

All bulbs listed as large size are 1 $\frac{1}{4}$ inches and up, mostly 1 $\frac{1}{2}$ inches and up, in diameter. Medium size bulbs are $\frac{3}{4}$ to 1 $\frac{1}{4}$ inches in diameter. Small bulbs are $\frac{1}{4}$ to $\frac{3}{4}$ inches in diameter. For the finest blooms, large bulbs are best. Medium size bulbs of most varieties will give nice cut flowers, but the spikes are not as long as from large bulbs. Although small bulbs of many varieties will bloom, others will not. The blooms from small bulbs will be noticeably smaller in size. Bulblets seldom bloom and are often difficult or impossible to germinate. We do not recommend them except to experienced growers.

1949 INTRODUCTIONS

FROM C. F. AND D. J. KUHN.

ATHENE (Kuhn). [Wenonah X (Canberra X Spray of Gold)]. (400) An outstanding addition to the famous Kuhn varieties. It is nearly true white, shading to a cream throat. It possesses all those desirable growing characteristics so essential to a top-flight commercial. Its average height is 50 to 54 inches. It has 20 to 22 buds on a 27 inch flowerhead. It opens up to 10 four and three-quarter inch florets with 6 more showing color. It never crooks and has a tough petal texture that does not wilt in hot winds. In addition to having the characteristics of a good cut flower, it has definite show-table possibilities because of its long flowerhead, the perfect formal placement, and the large number it holds open and in color. It blooms in 75 days.

Price—Any size bulb, \$3.00. Bulblets, 1 for \$.30, 10 for \$2.40, 100 for \$20.00.

FROM BYRON R. KADEL.

TEMPTATION (Kadel). (Blue Beauty X King Lear). (470) A radiant self purple which opens 6 five-inch florets with 6 more showing color on an 18 bud spike. The height is 58 inches. Placement and facing of florets are excellent. Florets do not water spot or burn in the field. Bulblet production and germination good. Blooms in 75 to 80 days. Winner of the American Home Achievement Award at the Maryland show in 1947.

Price—Any size bulb, \$5.00 each. Any size bulb and 10 bulblets, \$9.00. No bulblets sold separately.

FROM ROGER ARNETT.

NANCY (Arnett). (450) The light red glad with the outstanding trial record. Tested from East to West, attaining the highest average. Although it is primarily a commercial variety, it has an impressive show record with but limited showing. During the past summer it was "best seedling" in four shows, won the American Achievement Award at Battle Creek, Michigan, and was grand champion of the show at Midland, Michigan. It opens up to 7 large florets with 7 more showing color on an 18 bud spike. Height 50 to 56 inches. Excellent propagator and very healthy. Uniformly produces a high percentage of excellent spikes which open to the tip in water when cut in bud. 91 days.

Bulblets

Price—per 1—Large \$1.00, Medium \$.75, Small \$.50, 10 — \$1.00
10—Large 8.00, Medium 6.00, Small 4.00, 100 — 8.00

FROM ALFRED L. MOSES.

GAIL (Farrington—Moses). (466) A tall, vigorous lavender, color similar to Minuet, with three inconspicuous rose lines in the throat. Opens 7-9 florets. Excellent attachment. Never crooks and never flakes. Opens well in water when cut in bud.

Price—Any size bulb, \$3.00. 10 bulblets for an additional \$3.00 if purchased with a bulb. No bulblets sold separately.

FROM ELMER GOVE.

SEQUIN (Palmer). (412) An early yellow that should make a good commercial. A clear medium yellow with no markings. Opens 6 to 7 large blooms on a slender spike up to five feet tall. Placement always good. A well balanced plant and spike. Fine propagator. Blooms in 75 to 80 days.

Price—Any size bulb, \$3.00 each.

FROM LUTHER P. BENEDICT.

BETTY DUNCAN (Benedict). (422) A beautiful orange, blending to a golden throat. Does not burn or bleach in the sun. Opens up to 7 large florets on a 16 bud spike. Height 57 inches. Bulblet production and germination good. Even large bulbs produce many bulblets. Award of Merit, N. E. G. S. Score 87.

Price—1 large bulb, \$3.00. 1 large bulb and 10 bulblets, \$5.00.

FROM WILLOW ACRES (FERGUS E. MORRILL)

BARBARA ANN SCOTT (Sisson). (406) A ruffled cream of heavy texture with a slight greenish flush. A narrow violet mid-rib on the lower petal. On opening, the lower throat changes to a deep cream or buff. 7-8 wide open, firmly attached, perfectly placed florets on an 18-20 bud spike. Always straight. Height 52 inches. An outstanding florists' variety.

Price—Any size bulb, \$5.00.

Grower's unit—1 large, 2 medium, 5 small, and 50 bulblets, \$50.00.

SMILETTE (Sisson). (260) A ruffled lavender rose miniature. Florets 3 inches but appear smaller due to intense ruffling. Opens 5-6 on a 15 bud spike with 4 more showing color. Height 42 inches. Opens well in water. A very beautiful variety.

Price—Any size bulb, \$3.00. No bulblets sold.
